Hints: No noisy displays. Picture what the decorations will look like at dark, from a distance, while driving by. More lights are generally more visible. Judging will be somewhat subjective, loosely based on creativity, perceived effort put into the display, visibility and just a general 'feel' of the display. More lights are better lights!

Feel free to call in your voting opinion.

Wescott Hills does not provide for Christmas tree disposal. If you use a real tree, please arrange for your own disposal.
